MADISON

The standard Madison square panel comes in different colors and finishes, making possible an infinite range of graphic compositions. These panels can be fitted to horizontal surfaces, by securing them to the grid and creating a false ceiling.

DIAMANTE

The Diamante acoustic system is characterized by a modular design and a large size of the sound-absorbing panels: they can be located on walls, ceilings, floor screens or around desks. Diamante panels ensure an acoustic improvement and more privacy of the workplace, allowing a separation of spaces.
