Product features

Premium Table Top

Choose from a wide range of coloured and wood laminate.

Ventilation

The adjustable fan helps keep the air fresh inside the pod.

Lights

Efficient LED lights are controlled by remote sensors to turn off when not in use.

TV Bracket*

All pods and dens come with the optional extra to fit tv brackets.

Fabric Roof

Does your pod have floors above? We can fabric match the roof to provide the finishing touch.

Acoustic Rating

All meeting pods reduce sound up to 32dB.

Good to know

Lights with motion sensor can be added as required as optional extras - lights are LED down-lights and can be switched from cool white to warm white.

A single plug is needed to power the den - the power cables are 2m long and can be plugged into a floor box underneath or a nearby wall plug.

What's it made from?

Polyurethane acoustic foam
Black steel glass fixings
Grey carpeted floor
FSC ® certified
(FSC-C109654):Laminate,
MDF and Birch plywood

A look inside

Our fans offer exceptional performance, low noise, and extended lifespan, thanks to a friction-free design that eliminates contact between the shaft and bearing, ensuring stability and eliminating common motor issues.

Additionally, an all-plastic construction enhances the insulation resistance and electrostatic discharge (ESD) performance. The incorporation of Seal and Clip (S&C) and Blanked and Seamless (B&S) technologies boosts performance and durability which providing benefits like dust resistance, oil leakage prevention, and increased temperature resilience, ultimately extending the fan's lifespan.

LED light strips are a versatile and energy-efficient lighting solution. When it's combined with the PIR motion activation technology, they become even more environmentally conscious. The bright LEDs illuminate the pods enough to allow the user to work comfortably without eye strain or headaches. Dimmer switches also allows the user to increase or decrease the brightness to suit them.

The lighting responds to movement and switches off automatically when the area is unoccupied, motion-activated LED light strips help conserve energy and promote sustainability, making them a smart and eco-friendly choice for modern lighting needs.
