

CIRCUIT ZOOM

CIRCUIT ZOOM is intended to create a private office area even in open plan spaces if combined with Circuit Privè, the particularly fixed dimensions of which in any case promote privacy. In this way, private and comfortable workspaces can pop up for video calls in this time of video conferencing and remote working. Equipped with: work surface with USB ports, integrated smart phone charger, mains and network panel; it comes ready for TV screen fitting to allow smart working and is also suited for comfortable home working.

Circuit Zoom + Privè / Jet 8078 - 3090 - 8017

Freestanding cocoon with sides and roof, including a melamine table top with power sockets and panel, to which a monitor can be fitted. Suitable as a workstation and especially for video calls, respecting user privacy and others in the workplace, thanks also to its acoustic absorption properties. Ideal for use with other seating or with the Circuit Privè sofa in order to create an even more comfortable and intimate workplace. Castors allow it to be moved around easily and according to local needs.
