Freedom Cable Management & Components

Horizontal cable management on the Freedom individual desks are facilitated by the use of optional 'drop down' cable trays, which can be hinged down on both sides to facilitate access into the cable trays from the front or rear of the desk.

Cable trays can be specified 'full' length or 'short'. The intention behind the 'short' cable trays is to leave a space at either end of the desk top to accommodate CPU holders or Personal Storage solutions.

All cable trays can be mounted either centrally under the desk top or off-set towards the rear of the desk top if more knee space is required.
