

GC5 CHAIR

The GC5 chair is transitional chair that supports agile learning environments where teaching and training modes are fluid and traditional chairs and desks just won't do. They are designed to combine mobile seating with personal storage whilst providing a robust surface which can be utilised for paperwork tasks, when using portable electronic devices or when moving from collaborative to individual working scenarios.

The durable tablet has a PU moulded, impact resistant edge detail with an integral pen groove. This, combined with the wipe-down surfaces of the seat shell and frame makes GC5 a practical solution for high usage areas where space is at a premium and flexibility of use is key.

GC5 CHAIR

The moulded, Polypropylene seat and back shell is available in a selection of striking colours and the orbital tablet, when specified can be positioned for either left or right handed use.

The chair base features six castors, adding strength and practical mobility, whilst the moulded storage tray with its easy-clean, perforated surface keeps your personal bags close to hand.
