

# Hexa

Hexa's geometry is unique, differential and aesthetic thanks to the aluminum frames. But Hexa is much more than aesthetics and design. Hexa is functionality, with a range of innovative and attractive finishes that give new offices a fresh and differentiating look.

Melamin top: Hera oak / Frame: Terracotta

Rustic and industrial environments go naturally together. Hexa is a keynote product that brings together its composition of its aluminum and melamine finishes in the perfect harmony within these edgy spaces.
