

With the Kite® table system everyone has a good line of sight and sits at a defined straight edge with 750mm of personal space; no one straddles a table leg, writes over a seam or is squashed into a corner. The four sided frame provides greater rigidity and durability than traditional I frame centrally supported tables.

The dual-locking castor limits movement, negates the need for linking devices and makes Kite® as stable as fixed-frame furniture.

 4 weeks	 5 year warranty
 36 kg KTR25 Weight of other tables on request	 95% recyclable
 Chrome 3	 SKA rated

Features

The unique shape of Kite® shape creates the perfect configuration for any presentation style

Quickly assembled and reconfigured by a single person

Easy to fold, move and store without heavy lifting or the need of a trolley

As stable as fixed-frame furniture with a rigid and durable 4-sided frame

Locked castor prevents the need for linking devices

50mm levelling ensures table-tops meet flush

Narrow transit profile fits easily through doors (390mm max)

Modesty panels and cable management can be fitted without compromising folding function

Compact nesting to maximise space

25mm MFC tops

MFC, with banded and inlay tops

Straight and tapered legs

Kite Shape and Kite Rectangular folding tables tested to BS EN 15372:2008 - Test Level 2

Credenzas in matching finish

Suggested layouts

Selection of popular 750 seating arrangements using only Kite tables, Rectangular tables, Square tables and Semi Circle tables.

All dimensions in mm.

The two diagrams above have the same floor area. The diagram to the right shows the area converted into a lecture-style arrangement. The tables are shown folded down and nested together on the back wall. Seating capacity is doubled and the tables remain in the room.
