

# Meteor Mesh

# Breathable Support.

Guaranteed to provide a contemporary feel to any office environment, Meteor Mesh delivers the same high performance as the Meteor range.

The addition of a breathable mesh back, available in a variety of colour choices, creates a clean modern styling that enables users to stay comfortable throughout the day, discouraging fatigue.

## Material Content

Components are constructed of the following

## Recycled Content

Contains up to 38.5% of Recycled Material

## Recyclability

The range is 99% recyclable

# 99%

Environmental information for this range has been based on M500. For more detail please refer to individual EPA sheets.

# Meteor Mesh

## Standard Mechanism

- The standard mechanism allows the backrest height and angle to be adjusted with the ability to lock in position.
- The back angle can be adjusted by lifting the rear lever on the right hand side of the chair to achieve the desired position, the desired position can be set and locked in place by releasing the lever.

## Independent mechanism

- An independent mechanism enables the seat and backrest angle to be adjusted independently of each other, with the ability to lock in a fixed position.
- Seat angle can be adjusted by lifting the left lever on the side of the chair and can be set to the desired position and locked in place by releasing the lever. Raising the lever to its most upright position allows the seat angle to adjust as you work.
- Back angle can be adjusted by lifting the rear lever on the right hand side of the chair and can be set to the desired position and locked in place by releasing the lever.

## At a glance

1. 3D self-supporting mesh
2. 8 mesh colours
3. Fixed lumbar support
4. Multi-functional arm pads
5. Height adjustable arms with fold down feature
6. Height adjustable ratchet back
7. Seat angle adjustment
8. Standard or independent mechanism

**Good to know**  
A mesh back allows excess heat to ventilate which can discourage fatigue

**Please note:** Features are model dependent, please refer to price list pages when specifying

# Meteor Mesh

## to specify your chair...

1. Check the **Standard Features and Finishes** and select the **Model** you require
2. Select the **Fabric Band** for the fabric you are using (standard fabrics are listed on pages 258-259), this will give you the basic price per chair
3. Select any **Optional Extras or Alternative Finishes** you require and add on any extra costs as shown per chair
4. You now have the total cost and specification for **Your Chair**

When ordering, please ensure that you send us all this information, so we can correctly fulfil your requirements.
