

MOAT

OVERVIEW:

Moat is a refined collection of luxury pouffes, designed to bring understated elegance to any space.

Available in three timeless shapes — square, circular, and lozenge — each offered in two heights, the range balances sculptural simplicity with practical versatility. A distinctive MFC plinth base adds a sleek, architectural touch, elevating the design both literally and visually.

For added functionality and character, Moat also offers optional leather handle straps in rich tan or deep brown — perfect for effortless movement and a subtle nod to handcrafted detail.
