

OSCAR

PRODUCT DATA SPECIFICATION

Oscar task seating makes light work of long days at the office. Its sleek, modern styling cleverly hides innovative flexibility.

STANDARD FEATURES & MATERIALS

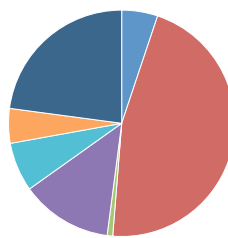

- | | |
|---------------|-------------|
| ① Headrest | ⑥ Arm |
| ② Plaque | ⑦ Hub |
| ③ Cassette | ⑧ Mechanism |
| ④ Lumbar Arch | ⑨ Base |
| ⑤ Lumbar Pad | ⑩ Castors |

Headrests and Back Cassettes encapsulate Gabriel 'Runner' mesh which is produced from 100% Polyester.

The seat cushion is moulded in cold-cured CMHR (Combustion Modified High Resilience) flexible Polyurethane foam offering consistency, pelvic support & comfort.

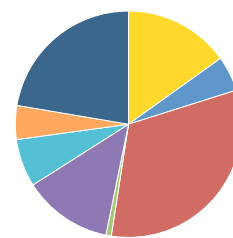

Seat cushion upholstery is available in a wide range of patterns, colours & weaves. They are produced and supplied at a minimum 'Crib 5' flame retardancy level; suitable for contract use in public areas. Since individual fabrics can differ, we recommend that manufacturers' technical details are consulted for full fabric specifications.

TYPICAL % COMPOSITION

CHAIR WITH STANDARD BASE
 Nett weight of chair - 13.29kg

- Steel
- Polyurethane
- Polypropylene 30% glass filled
- Polypropylene
- Polyester
- Polyamide (Nylon) 30% glass filled
- Polyamide (Nylon)

CHAIR WITH POLISHED BASE
 Nett weight of chair - 13.35kg

- Steel
- Polyurethane
- Polypropylene 30% glass filled
- Polypropylene
- Polyester
- Polyamide (Nylon) 30% glass filled
- Polyamide (Nylon)
- Aluminium

Self-Weighting Synchro Mechanism:

- ① Lift paddle handle for height adjustment.
- ② Twist end section for 5x back angle travel restriction settings.

CONSIDERATIONS

Oscar has been developed to integrate true sustainable design concepts that consider all aspects of environmental impact each product has during its lifecycle.

- Reduction of material intensity whilst retaining strength & stability.
- Use of interchangeable, modular elements, allowing: Ease of assembly, ease of use, ease of replacing individual components rather than whole chairs.

FEATURES

- Available in three frame colours, six standard mesh colours and accent 'Plaque' & 'Lumbar Pad' colours.
- Single lever, weight responsive synchronous mechanism with 5x angle restriction settings.
- Lumbar Pad support with 100mm height adjustment.
- Integral seat slide offering 65mm depth adjustment.
- Optional, active Headrest
- Optional 3D & 4D multi adjustable arms
- 65mm castors, offered in standard, soft-wheeled, brake unloaded and brake loaded options.
- Optional polished Aluminium base with chrome gas column.
