ELEGANT AND TIMELESS DESIGN

Features

Upholstered platform

Beech wood platform

Oak wood platform

Oak wooden trim

% Recycled Mat. = 71%
% Recyclable Mat. = 83,56%

Frame

Solid traditional beech or oak wood structure composed of beams and rectangular crossbars with rounded edges finished with two coned trapezoidal legs.

Platform

Union element between the frame and the rest of the components, it is a structure manufactured in 19 mm thick MDF covered with open-pore natural beech or oak wood veneer for sofas with a wooden platform, or uncovered, if you choose the upholstered option. Overlapping the frame is fixed through screws.

Seat

Made of natural wood, with a fitted elastic strap web. Over this lays a 100 mm thick polyurethane foam piece. Padding elements give the sofa great comfort. Finally completed by a removable upholstered cover with stitched edges, to facilitate easy cleaning. The seat is attached to the platform via removable fittings.

Backrest

Set of two pieces made of multiple polyurethane foam densities and wrapped in padded elements that bring the best support to the back. Completed by a removable upholstered cover with stitched edges, so that it can be easily cleaned.

Backrest support

19 mm thick MDF piece completely wrapped by high density polyurethane foam and upholstery. It brings support to the backrest cushions, providing the right orientation of inner padding. It is fixed to the platform via removable fittings.

Armrest

It has the same inner composition as the backrest support. The inner side, the one that is in contact with the user, has a padded reinforcement to ensure good ergonomics and comfort. It is fixed to the platform via simple removable fittings.

Wooden trim for backrest and armrest

19-mm-thick MDF trim covered in open-pore natural oak veneer and 1-mm-thick natural wood veneer thermofused edge all around. Completely varnished surface in line of planes by rollers with ultraviolet curing. Overlapping the backrest or the arm by means of screws to facilitate disassembly for maintenance.

5-year warranty
