

Re-act Deluxe

The Re-act Deluxe is a supportive chair with great adjustability and is available with specialist adaptations such as seat air, headrest and coccyx cut-out for enhanced comfort. The Re-act Deluxe is suited to larger/ taller users due to its deep seat and large backrest.

Independent mechanism allows an accurate angle between the seat and backrest to be achieved. When unlocked the chair 'rocks' from a semi-knee tilt point allowing good movement without adjusting your trunk to thigh angle. Tension control allows you to adjust how easy, or difficult, it is to recline in the chair.
