

Calculating Exact Dimensions of the Bay & Run of Bays

Rivet Racking Bay Loading (kgs)

Rivet Upright

Design and plan your Rivet Racking layout

	J Rivet	Heavy Rivet
A	98mm	125mm
B	see below ⓘ how to calculate exact Shelf Pitch	
C	B minus D	B minus D
D	30mm	88mm

- A Minimum First Shelf Level Height
- B Shelf Pitch - Distance between levels
- C Clear Entry - Useable space between shelf levels
- D Shelf Thickness - Beam and chipboard

ⓘ How can you calculate exact Shelf Pitch (B)

Height of item stored + Shelf Thickness divided by **38.1**
= Round decimal up to the next whole number and multiply by **38.1**

e.g. 320mm (Height of stored items) + 88mm (Heavy Rivet) / 38.1
= 10.7 rounded to 11 x 38.1 = 419.1mm Shelf Pitch

Industrial racking for any application

Bay Colour Options

-  For Blue Uprights with Orange Shelves add /BO to the end of your chosen price code.
-  For Blue Uprights with Grey Shelves add /BG to the end of your chosen price code.

If you'd like the Heavy Rivet in blue/orange, use code 'BO' when placing the order.

HEAVY RIVET

Heavy duty industrial racking that meets the demands of any warehouse, storeroom and workshop.

Rivet Racking offers incredible value for money with amazing strength and rigidity. The quality of the materials used and robust construction ensures it will meet the rigors of the toughest workplace.

The vast range of bay sizes allows for a solution to meet your storage needs and the available space. Flexibility of wide open bays and large shelf capacities enable products of varying weights and dimensions to be easily stored within a single system.
