

SOLUS

Our new Solus range gives you the opportunity to work alone, keeping you focused in your own get-away from noise and other distractions helping you to be more productive. The Solus range combines an array of interior decoration from timber panels, writable surfaces and upholstered walls and comes with lighting as standard.

The Solus 'Office Pod' can also offer desking, pedestal, power supply and fan for air flow. The Solus 'Single Pod' can be used for quick calls, with no furniture, or with added upholstered seating and arm. The Solus 'Booth' Pod allows you to breakout in small groups with upholstered seating and a table for meetings. It can have power and fan added for a lengthier, more comfortable workplace.
