

# TuVee TV16

TuVee likes to stand out. He's an attention seeker with a love for Shakespearean prose...actually we don't know about that, but he definitely loves to turn heads. And we wouldn't have him any other way.

Perfect for those looking to create bold, inspiring interiors, these vibrant stylish chairs are designed with a unique exposed hem and chevron patterning to create a fun look that doesn't take itself too seriously. From education environments to inviting breakout spaces, the TuVee range has you covered.
