

ZEUS

SEATING THAT PERFORMS.

Zeus is a contemporary task seating range, delivering a fresh aesthetic with a stylish mesh back available in a range of colours to suit modern office environments.

The comprehensive suite of adjustments available offer the user reliability and functionality. With the optional addition of an adjustable headrest, Zeus provides support in alternative postures including reclined positions.

This product has been designed to conform to the following standards and has been tested for type approval.

- BS EN1335 – 1:2000
- BS EN1335 – 2 / 3 :2009
- BS5459 - 2:2000+A8:2008

MATERIAL CONTENT

Components are constructed of the following

RECYCLED CONTENT

Contains up to 22% of Recycled Material

RECYCLABILITY

The range is 99% recyclable

99%

Environmental information for this range has been based on ZU704. For more detail please refer to individual EPA sheets.

ZEUS

INDEPENDENT MECHANISM

- An independent mechanism enables the seat and backrest angle to be adjusted independently of each other, with the ability to lock in a fixed position.
- Seat angle can be adjusted by lifting the left lever on the side of the chair and can be set to the desired position and locked in place by releasing the lever. Raising the lever to its most upright position allows the seat angle to adjust as you work.
- Back angle can be adjusted by lifting the rear lever on the right hand side of the chair and can be set to the desired position and locked in place by releasing the lever.

FULLY SYNCHRONISED MECHANISM

- The fully synchronised mechanism provides a synchronised tilting action where the seat and back recline together at a fixed ratio of 2.8:1 which reflects the natural geometry of the way the body moves; providing fluid ergonomic support.
- The extent of recline can be fixed in the desired position and locked in place by adjusting the lever. Raising the lever allows the chair to enter into a free float action, it is preferential to leave the chair in a free floating motion as this can contribute to good back health. To optimise this function it is important to adjust the chair dimensionally, adjusting the tension control will allow you to vary the resistance of the mechanism.

AT A GLANCE

1. Fully adjustable headrest
2. 3D self-supporting mesh
3. 8 mesh colours
4. Multi-functional arm pads
5. Adjustable lumbar support
6. Height adjustable arms with fold down feature
7. Height adjustable ratchet back
8. Synchronised or independent mechanism
9. Seat depth adjustment

GOOD TO KNOW
Zeus offers additional support with an optional headrest.

Please note: Features are model dependent, please refer to price list pages when specifying

ZEUS
